

# How to LOVE

dear doris,  
what do you do if you  
get asked out a lot but  
you don't like any of the  
people who asked you out?

Some of us don't want to be  
the one to make the first move.

We lack confidence, or we  
don't want to seem desperate.

why aren't they coming over?  
maybe I'm not being  
nonchalant enough

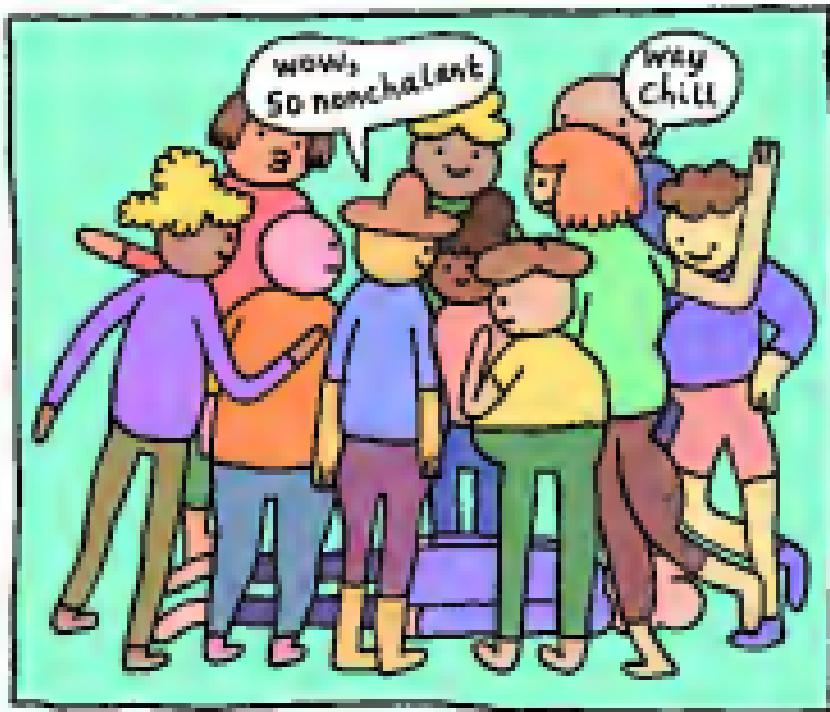

For many of us, this means  
nothing happens...

try and resist me  
now

O  
e

and although some of us still  
manage to get attention

this means our only options  
are those who approach us

and not the ones we  
actually like.
